

Thank You!

MineralFields and its thousands of investors and their associated financial advisors would like to thank the following great mining companies and their associated professionals for helping to close the following placements from the **\$20,598,000** that MineralFields raised throughout Canada in 2004 among its eight super flow-through limited partnerships. These companies were in a category that achieved high overall scores among the 900 Canadian mining issuers that were ranked by MineralFields, using its proprietary selection criteria. Several of these mining issuers were also financed in previous years by MineralFields.
